

fiveonefour

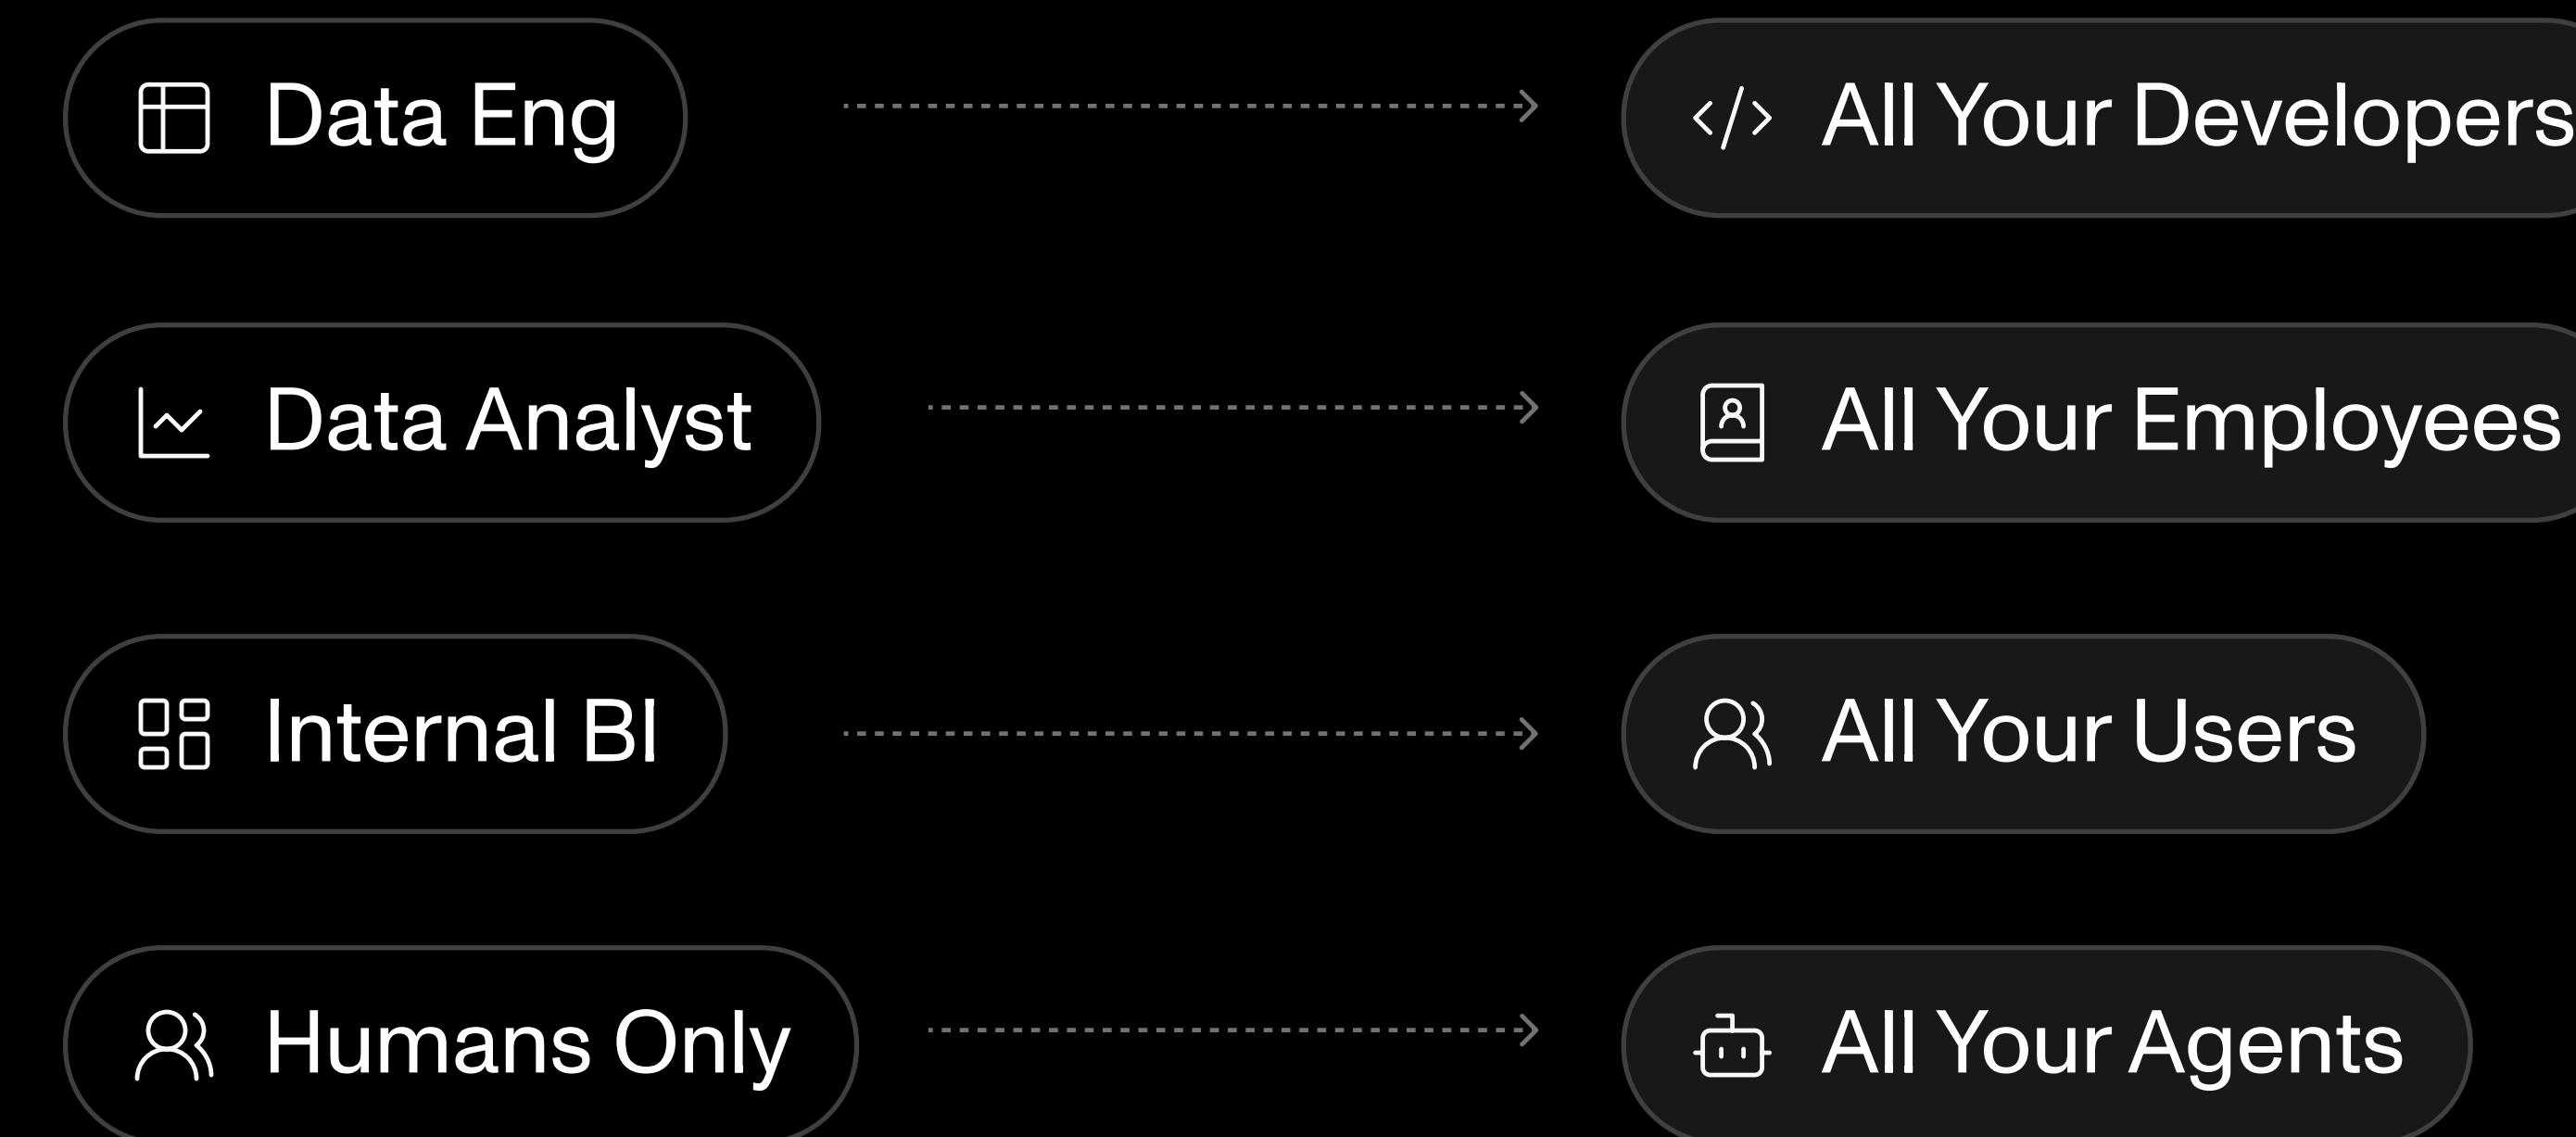

Developer platform for analytics in your app and AI

The Future of Analytics

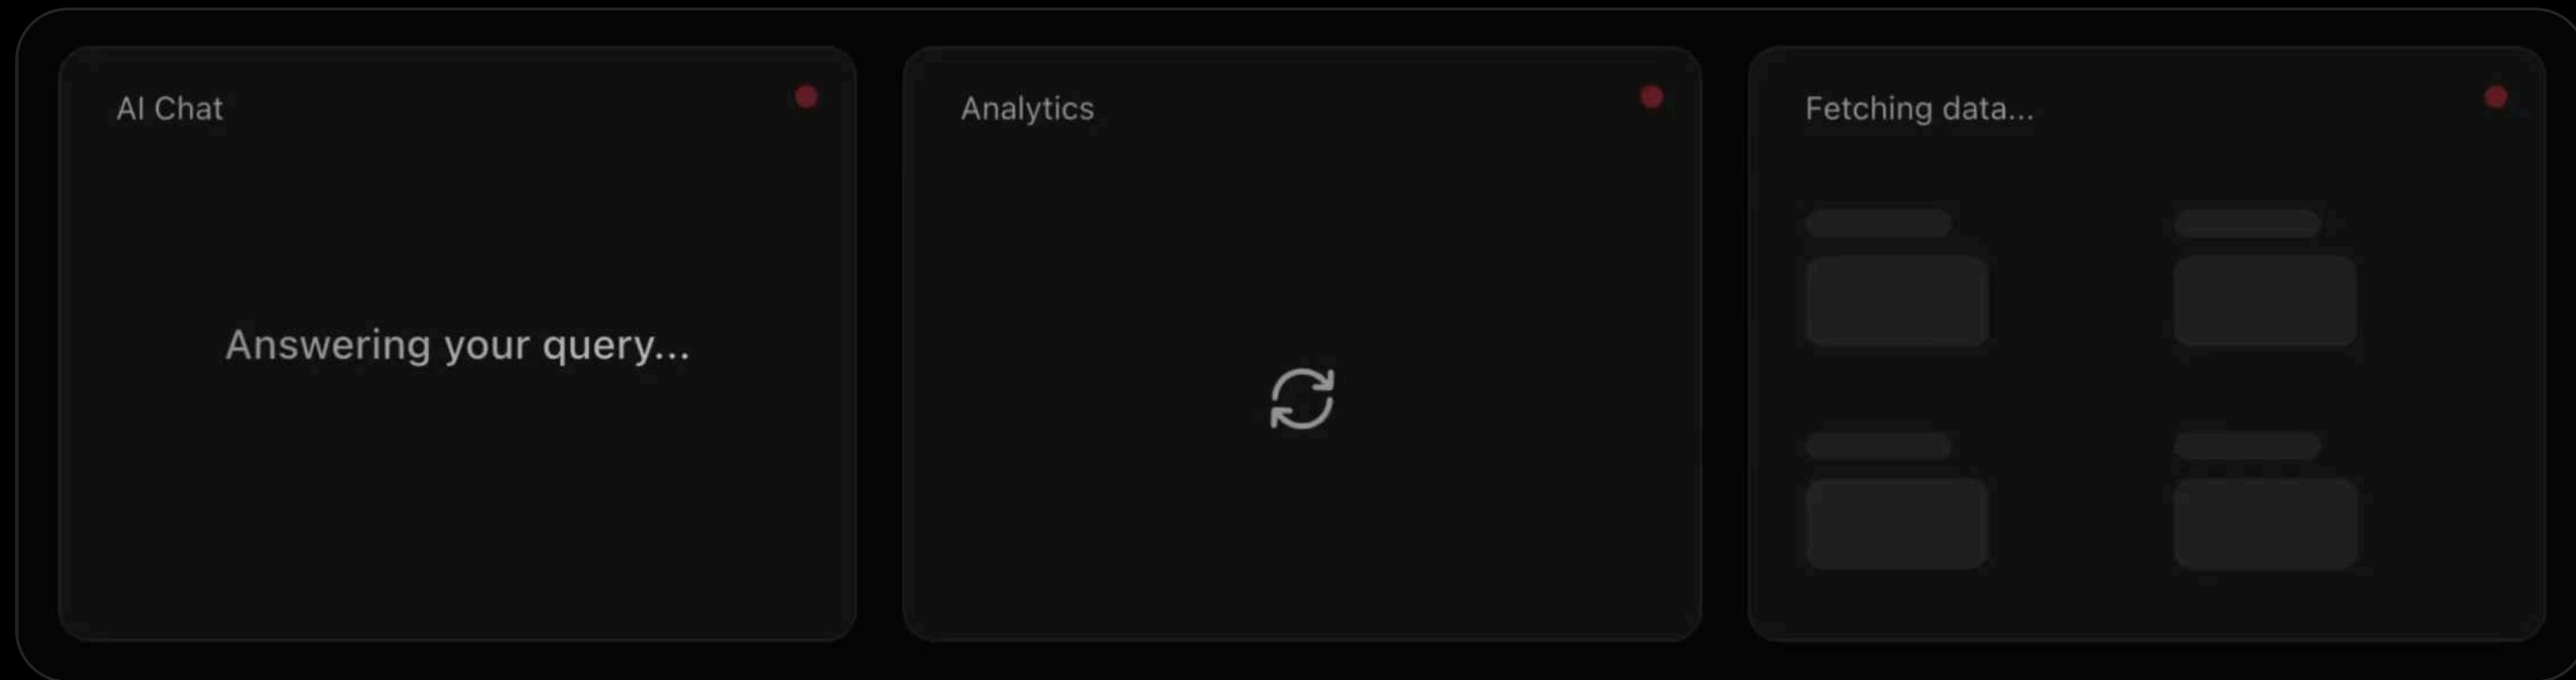

is in Applications and AI

Analytics as Apps → Unlock your data → Unlock the Future

But... the Data Foundation is Getting Harder

Next gen analytics on your current data stack results in:

 Frustrated users

 Ballooning costs

 Crippled innovation

Next-gen analytics demand a next-gen data foundation

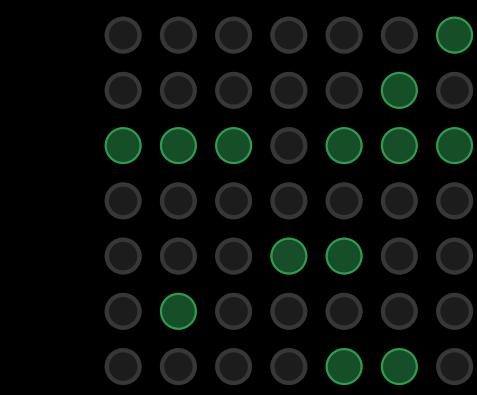

Real-time OLAP
infrastructure

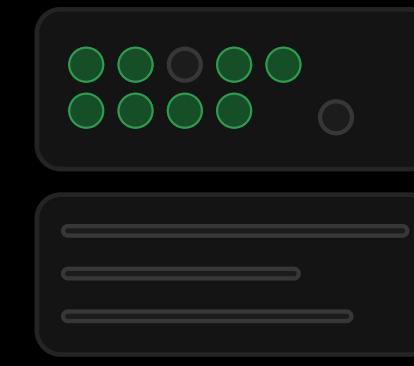

Seamless
integration

Developer
friendly

Data eng
best practices

AI agent
native

MooseStack

The easiest way for devs
to add realtime analytics
into your app

Open Source Dev Framework

MooseOLAP

ClickHouse for developers

Schemas as code

Migration management

Typed queries

AI-native local dev

Faster, cheaper, safer

AI copilot ready

Seed from production

Code hot-swap

MooseStack in your App

Works natively with your existing stack
